About this collection

The legislation in this collection has been reproduced as it was originally printed in the Government Gazette, with improved formatting and with minor typographical errors corrected. All amendments have been applied directly to the text and annotated. A scan of the original gazette of each piece of legislation (including amendments) is available for reference.

This is a free download from the Laws.Africa Legislation Commons, a collection of African legislation that is digitised by Laws.Africa and made available for free.

Annotated Statutes

Communications Act, 2009

Regulations setting out the Frequency Channeling Plan for Digital Terrestrial Television, 2013

General Notice 166 of 2013

[Published in Government Gazette 5201 on 29 May 2013](#)

Commenced on 29 May 2013

[This is the version of this document at 15 November 2017.]

[Note: The version of this legislation as at 15 November 2017 was revised and consolidated by the Legal Assistance Centre and the Government of the Republic of Namibia. All subsequent amendments have been researched and applied by Laws.Africa for Namibia.]

[These regulations were made by the Board of the Communications Regulatory Authority of Namibia.]

1. Definitions

In these regulations, any word or expression to which a meaning is assigned in the Act, shall have the same meaning and-

“Act” means the Communications Act, 2009 (Act [No. 8 of 2009](#)).

2. Purpose

These regulations set out the Frequency Channeling Plan for Digital Terrestrial Television in terms of section 100 of the Act.

3. Applicability

These regulations are applicable to all Broadcasting Service Licensees, as contained in the Regulations Setting Out Broadcasting and Telecommunications Service Licence Categories as amended in Government Gazette No. 5148, Notice No. 74, dated 13 March 2013, providing or intending to provide Digital Terrestrial Television.

4. Table of frequency allocations

The table of frequency allocations sets out Digital Terrestrial Television allocations for Namibia adopted by the Revised ITU Regional Radio Communication Conference in 2006 (GE06 Plan) for terrestrial television broadcasting in bands ranging from 174 MHz to 230 MHz and 470 MHz to 694 MHz.

Site name	Latitude	Longitude	Multiple number	Frequency (MHz)	Channel number	TX power (W)	Antenna peak gain (dBd)	Antenna peak gain (dBd)	Polarisation	Antenna Height (m)	Region
