MINISTRY OF LABOUR AND MANPOWER DEVELOPMENT

No. 28 1991

WORKMEN'S COMPENSATION ACT, 1941: SCALE OF FEES FOR MEDICAL AID

I, WILHELM FREDERICH GROBLER, Workmen's Compensation Commissioner, hereby give notice that acting under the powers vested in me by section 79 of the Workmen's Compensation Act, 1941, prescribe the "Scale of Fees for Medical Aid" inclusive of the general rules and general modifiers applicable thereto, appearing in the Schedule to this notice, with effect from 1 April 1991.

The fees appearing in the Schedule are applicable in respect of payments authorized with effect from 1 April 1991 irrespective of the date of the accident in respect of which payments are made.

W.F. GROBLER
WORKMEN'S COMPENSATION COMMISSIONER

Notes

(i) THE WORKMAN AND THE DOCTOR

The workman is permitted to choose freely his own doctor, and no interference with this privilege is permitted as long as it is exercised reasonably and without prejudice to the workman himself or the Accident Fund. The only exceptions to this rule are those cases where employers, with the Commissioner's approval, provide their own medical aid facilities in toto, i.e. including hospital, nursing and other services — section 81 of the Act.

In terms of section 60 either the Commissioner or an employer may send the injured workman to another doctor chosen by him (Commissioner or employer) for a special examination and report. Special fees are payable for this service.

In the event of a change of doctors attending a case, the first doctor in attendance will, except where the case is handed over to a Specialist, be regarded as the principal, and payment will normally be made to him. To avoid disputes, **doctors should refrain from treating a case already under treatment without first discussing it with the first doctor**. As a general rule, changes of doctor are not favoured, unless there are sufficient reasons therefore.

If an injured workman is in need of emergency treatment, the doctor should act in the same manner as he would to any patient who needs his urgent help. He should not, however, ask the Commissioner to authorise such treatment before the claim has been admitted as falling within the scope of the Act. It should be remembered that a workman seeks medical advice at his own risk. If, therefore, a workman represents to his doctor that he is a Workmen's Compensation Act case and yet fails to claim the benefits of the Act, leaving the Workmen's Compensation Commissioner, or his employer, in ignorance of any possible grounds for a claim, the insurance fund concerned cannot accept any responsibility for any medical expenses incurred. In such circumstances the workman would be in the same position as any other member of the public as regards payment of his medical expenses.

- (ii) Except where otherwise stated, the fees charged for services of a general practitioner shall be two-thirds of the fees of the specialist for the same service.
- (iii) Monetary values have been rounded off to the nearest 10 cents on the basis that monetary values ending with a 1 to 4 cents value must be rounded off to the lower zero, and that 5 to 9 cents must be rounded off to the upper zero.
- (iv) *Hospital visits:* Where a procedure or operation was done, hospital visits are regarded as part of the normal after-care and no fees may be

levied. Where no procedure or operation was carried out fees may be charged for hospital visits according to item 0110 for the first two weeks. Subsequent to the first two weeks of hospitalisation fees may be charged according to item 0111 for every week thereafter. Item 0109 should be used for a hospitalisation period of less than one week.

GENERAL RULES GOVERNING THE TARIFF

A. Consultation: Definitions

- (i) *First consultation:* Refers to a situation where a medical practitioner personally takes down a patient's medical history, performs an appropriate clinical examination and, if indicated, prescribes or administers treatment.
- (ii) *Subsequent consultation:* Refers to a voluntarily scheduled consultation performed for the same condition within four (4) months after the first consultation (although the symptoms or complaints may differ from those presented during the first consultation). It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.
- (iii) *Prolonged consultation:* Refers to a consultation with a duration longer than 30 minutes due to an emergency situation.

B. Normal hours versus after-hours: Normal working hours refer to the period 08:00 to 17:00 on Mondays to Fridays; the period 08:00 to 13:00 on Saturdays; as well as all other periods voluntarily scheduled (even when for the convenience of the patient) by a medical practitioner for the rendering of services. All other periods are regarded as after-hours. Public holidays are not regarded as normal working days and involuntarily scheduled work performed on such days is regarded as after-hours work. Services are scheduled involuntarily for a specific time, if for medical reasons the doctor should not render the service at an earlier or later opportunity. Anaesthetic services are not voluntarily scheduled.

- C.** The fee that may be charged in respect of the rendering of a service not listed in this tariff of fees shall be based on the fee in respect of a comparable service.
- D.** Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee shall be payable by the workman. In the case of a general practitioner, "timely" shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall however, be considered on merit and, if circumstances warrant, no fee shall be charged.
- E.** The appropriate fee may be charged for all pre-operative consultations with the exception of a routine pre-operative visit at the hospital.

- F. Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself.
- G. Unless otherwise stated, the fee in respect of an operation or procedure shall include normal after-care for a period not exceeding four months. Where the surgeon does not himself complete the after-care, it shall be his responsibility to arrange for this to be done without extra charge: Provided that in the case of post-operative treatment of a prolonged or specialised nature, such fee as may be agreed upon between the surgeon and the Commissioner, may be charged.
- H. Items involving removal of lesions include follow-up treatment for four months.
- I. Fees for all pathological investigations performed by members of other disciplines (where permissible): See section for Pathology.
- J. In exceptional cases where the tariff fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. Conversely, if the fee is disproportionately high in relation to the actual services rendered, a lower fee than that in the tariff should be charged.
- K. Save in exceptional cases the services of a specialist shall be available only on the recommendation of the attending general practitioner. Medical practitioners referring cases to other medical practitioners shall, if known to them, indicate in the reference that the patient was injured in an "accident" and this shall also apply in respect of specimens sent to pathologists.
- L. If a procedure is performed at the time of an initial or subsequent consultation, the fee for the consultation plus the fee for the procedure is charged.
- M. If such a procedure, planned at an initial or subsequent consultation, is performed at another time, the fee for the procedure only is charged.
- N. (a) Where a fee for any service is prescribed herein, the medical practitioner shall not be entitled to payment calculated on a basis of visits or examinations made where such calculation would result in the prescribed fee being exceeded.
(b) The number of consultations must be in direct relation to the seriousness of the injury and should more than 20 consultations be necessary, the Commissioner must be furnished with a detailed motivation.
(c) A single fee for a consultation/visit shall be paid to a medical practitioner who gives a single treatment to an injured workman who thereafter passes to the permanent care of another medical practitioner, not being a partner or assistant of the first. The responsibility for furnishing the first medical report in such a case ordinarily rests with the second practitioner.

- O.** (a) A workman should be hospitalised only if and for such a period his condition justifies *full-time* "medical aid".
- (b) Occupational therapy/ Physiotherapy. The same principles set out in modifier 0077 will apply when a workman is referred to a therapist.
- (c) In the case of costly or prolonged medical services or procedures the medical practitioner shall first ascertain in writing from the Commissioner for what amount the Commissioner will accept responsibility in respect of such treatment.
- P.** Where a practitioner is entitled to travelling expenses and he/she visits more than one patient during the course of one trip or renders services to more than one patient during the course of one trip, the full travelling expenses must be divided *pro rata* between the relevant patients. A practitioner is not entitled to charge for travelling expenses to his/her rooms during normal working hours. If a practice is classified as an itinerant practice, the practitioner is, according to Ethical Rule 4(1) of the Acts and Omissions in respect of which the Medical and Dental Council may take disciplinary steps, not permitted to charge fees for travelling expenses except in case of an emergency.
- Q.** In cases where a *second* Magnetic Resonance Imaging of the spine is deemed necessary, or a Magnetic Resonance Imaging of another anatomical region is requested, proper motivation must be submitted upon which the Commissioner will consider approval.

GENERAL MODIFIERS GOVERNING THE TARIFF

- 0001 An additional premium of 50% of the fee for the particular service shall apply to after-hours pathology services. For after-hours radiological services, the additional premium shall be 50% of the fee for the particular service (section 19.12 excluded) with a maximum premium of:
- | | |
|---------------------|-----------|
| Radiology | : R330,00 |
| Radiotherapy | : R360,00 |
| Ultrasound | : R300,00 |
| Computed Tomography | : R300,00 |
- 0002 Item 38/0101 is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him.
- 0003 The fee in respect of more than one abdominal operation or procedure performed through the same incision shall be 100% of the fee in respect of the major operation or procedure plus 50% of the fee for the second operation or procedure, plus 25% of the fee for the third procedure or operation, with a maximum of two such additional operations or procedures.

0005 The fee in respect of more than one operation or procedure performed under the same anaesthetic, but not through the same incision, shall be the tariff fee in respect of the major operation or procedure plus half the tariff fee in respect of each additional operation or procedure with a maximum of four additional operations or procedures. This rule shall not apply where four or more entirely unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee for his operation.

Note:

In the case of multiple fractures and / or dislocations, the same values shall prevail.

0006 A 25% reduction in the fee for a subsequent operation for the same condition within one month shall be applicable if the operations are performed by the same surgeon (an operation subsequent to a diagnostic procedure is excluded). After a period of one month, the full fee is applicable.

0007 Use of an ECG Monitor (own equipment) — R17,40.

0008 Use of sophisticated ECG Monitor (own equipment) concomitant with intra-vascular blood pressure recording — R69,80.

0009 The fee for an assistant is 15% of the fee for the specialist surgeon, with a minimum of R74,40. Where a procedure requires a specialist assistant, the fee is $33\frac{1}{3}\%$ of the fee for the specialist surgeon.

0010 A fee for a local anaesthetic administered by the operator may only be charged for an operation or a procedure having a value greater than R93,00. The fee shall be calculated according to the basic anaesthetic fees for the specific operations. Anaesthetics time may not be charged for, but the minimum fee as per modifier 0036 shall be applicable in such a case. Not applicable to radiological procedures (such as angiography and myelography). **No fee may be levied for topical application of local anaesthetic.**

0011 The additional fee to all members of the surgical team for after-hours emergency surgery shall be R37,20 for each half hour or part thereof of the operation time.

0013 When an endoscopic examination is done before or after an operation by the operating surgeon or the attending anaesthetist, only 50% of the fee for the endoscopic examination may be charged.

If a third person is called to do an endoscopic examination, the full fee may be charged.

0014 Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under General Rule J, except where already specified in the tariff.

INJECTIONS AND INFUSIONS

MODIFIERS GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

- 0015 Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after operation, no extra fees will be charged as this is included in the global operative fees. Should the practitioner doing the operation prefer to ask another practitioner to perform postoperative intravenous infusions, then the practitioner himself (and not the patient) is responsible for remunerating such practitioner for the infusions.
- 0017 In the case of intravenous, intramuscular or subcutaneous injections given by the doctor himself in respect of patients who attend the consulting rooms, administering a first injection, forms part of the consultation and all subsequent injections for the same condition should be charged at 50% of the appropriate consultation fee *in accordance with general practice schedule*.
- 0018 In the case of a course of desensitization injections, a full consultation may be charged for administering each injection *in accordance with the general practice schedule*. 3

MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETIC FOR ALL THE PROCEDURES AND OPERATIONS INCLUDED IN THIS TARIFF

- 0021 Anaesthetic fees are determined by obtaining the sum of the BASIC ANAESTHETIC UNITS AND THE TIME UNITS. IN CASES OF OPERATIVE PROCEDURES ON THE MUSCULO-SKELETAL SYSTEM, OPEN FRACTURES AND OPEN REDUCTION OF FRACTURES OR DISLOCATIONS ADD FEES AS LAID DOWN BY MODIFIERS 5441 TO 5448.
- 0023 The basic unit value is laid down in the Tariff. This basic unit value is a reflection of the additional anaesthetic risk, the technical skill required of the anaesthetist and the scope of the surgical procedure, but excludes the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic unit value in all cases on the following basis:
3

Anaesthetic time: The remuneration for anaesthetic time shall be per 15-minute period or part thereof, calculated from the commencement of the anaesthetic at R22,50 per 15-minute period or part thereof, provided that should the duration of the anaesthetic be longer than one hour the fee shall, after one hour, be R45,00 per 15-minute period or part thereof.

- 0024 If a pre-operative assessment of a patient by the anaesthetist is not followed by an operation, it will be regarded as a consultation at hospital or nursing home.

- 0025 Anaesthetic time is calculated from the time the anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthetist is no longer required to give his personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for anaesthetic time. The anaesthetist must show in his account the exact anaesthetic time and the supervision time *spent with the patient*.
- 0027 Where more than one operation is performed under the same anaesthetic, the basic value will be that of the major operation with the highest unit value.
- 0029 When rendered necessary by the scope of the anaesthetic, an assistant anaesthetist may be employed. The remuneration of the assistant anaesthetist shall be calculated on the same basis as in the case where a general practitioner administers the anaesthetic.
- 0031 The treatment with intravenous drips and transfusions (i.e. re-indentification of delivered and certified compatible blood with the patient and actual administering of blood) is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered during actual theatre or operating time. (For these services at other times see items 0205 and 0207.)
- 0033 When an anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated on full anaesthetic rate, subject to the provisions of modifier 0035.
- 0034 All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum basic anaesthetic fee of R60,00.
- 0035 The minimum fee for any anaesthetic procedure administered by a specialist anaesthetist shall be R105,00.
- 0036 Fees for an anaesthetic administered by a general practitioner shall be two-thirds of the units applicable to the specialist anaesthetist provided that no anaesthetic shall have a lesser value than R90,00. The monetary value of the unit is the same for both a specialist anaesthetist and a general practitioner anaesthetist.

Note: Modifying units may be added to the basic unit value according to the following table:

- 0037 Utilisation of total body hypothermia: Add R45,00.
- 0038 For procedures performed by Lithotripsy: Add R30,00.

- 0039 Controlled hypotension: all cases up to one hour add R45,00, thereafter add R15,00 per $\frac{1}{4}$ hour or part thereof.
- 0041 Utilisation of hyperbaric pressurisation: Add R45,00.
- 0042 Utilisation of extracorporeal circulation: Add R45,00.
- 0044 Anaesthesia administered to patients in the prone position shall have a minimum basic anaesthetic fee of R60,00.

Modifiers 5441 to 5448

Modification of the anaesthetic fee in cases of operative procedures on the musculo-skeletal system, open fractures and open reduction of fractures and dislocations is governed by adding units indicated by modifiers 5441 to 5448. (The letter "M" is annotated next to the number of units of the appropriate items, for facilitating identification of the relevant items.)

- 5441 In all cases of open fractures, open reduction of fractures and dislocations: Add R15,00 except where the procedure refers to the bones named in Modifiers 5442 to 5448.
- 5442 Shoulder, scapula, clavicle, humerus, elbow joint, upper $\frac{1}{3}$ tibia, knee joint, patella, mandible and temporo-mandibular joint: Add R30,00.
- 5443 Maxillary and orbital bones: Add 45,00.
- 5444 Shaft of femur. Add R60,00.
- 5445 Spine (except coccyx), pelvis, hip, neck of femur: Add R75,00.
- 5448 Sternum and/or ribs and procedures which involve an intra-thoracic approach. Add R120,00.

POST-OPERATIVE ALLEVIATION OF PAIN

- 0045 An anaesthetist may charge for post-operative pain relief according to item 0109, provided it is indicated for specific management of pain by specialised techniques. A routine post-operative visit is included in the anaesthetic fee. Where the anaesthetic is administered by another anaesthetist, post-operative alleviation of pain shall be charged according to the procedure for instituting the therapy.

MUSCULO-SKELETAL SYSTEM

MODIFIERS GOVERNING THIS SPECIFIC SECTION OF THE TARIFF

- 0046 Where in the treatment of a specific fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting on the same bone, the fee for the initial treatment of that fracture or dislocation shall be reduced by 50%. After one month, a full fee as for the initial treatment, is applicable.
- 0047 A fracture NOT requiring reduction shall be charged on a fee for service basis PROVIDED that the **cumulative amount does NOT exceed the charges for a reduction.**
- 0048 Where in the treatment of a fracture or dislocation an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be **R83,70 (including after-care).**
- 0049 **Except where otherwise specified**, in cases of compound fractures, R238,70 (specialists) and R158,10 (general practitioners) are to be added to the fees for the fractures, **including debridement.**
- 0050 In cases of a compound fracture where a debridement is followed by internal fixation (**excluding fixation with Kirschner wires and excluding fractures of hands and feet**), the full amount according to either modifier 0049 or 0051 may be added to the fee for the procedure involved, plus half of the amount according to the second modifier (either 0049 or 0051 as applicable).
- 0051 **Except where otherwise specified** in cases of fractures requiring open reduction, internal fixation, external skeletal fixation or bone grafting: Add R238,70 (specialists) and R158,10 (general practitioners).
- 0053 Fractures requiring percutaneous internal fixation [Insertion and removal of fixatives (wires) in respect of fingers and toes included]: Add R99,20 (specialists) and (general practitioners) add R65,10.
- 0055 Dislocation requiring open reduction: Fee for the specific joint plus R238,70 (specialists) and R158,10 (general practitioners).
- 0057 The maximum fee for multiple reconstructive procedures to one foot is R1 209,00.
- 0058 Revision operation for total joint replacement and immediate resubstitution (infected or non-infected): per fee for total joint replacement + 100%.

**MODIFIER GOVERNING THE SPECIFIC SECTION
AMPUTATIONS (see item 0659)**

- 0059 Primary guillotine amputation: 50% of specific procedure.

**MODIFIER GOVERNING COMBINED PROCEDURES
ON THE SPINE**

- 0061 In cases of combined procedures on the spine, both the orthopaedic surgeon and the neurosurgeon are entitled to the full fee for the relevant part of the operation performed.

**MODIFIER GOVERNING THE SUBSECTION
REPLANTATION OPERATION**

- 0063 Where two specialists work together on a replantation procedure, each shall be entitled to two-thirds of the fee for the procedure.
- 0064 Where the replantation is unsuccessful, no further surgical fee is payable for amputation of the non-viable parts.

MODIFIER GOVERNING THE SECTION LARYNX

- 0067 *Micro-surgery of the larynx:* To the fee of the operation performed add 25%. For other operations requiring the use of an operation microscope, the fee shall include the use of the microscope, except where otherwise specified elsewhere in the Tariff.
- 0068 Fees for multiple intra-nasal procedures should be charged for separately, subject to modifier 0005 with a maximum of three procedures. Applicable to the following items: 1020, 1022, 1024, 1025, 1029, 1035, 1039, 1041, 1043, 1067, 1069, 1073 and 1079.

When endoscopic instruments are used during intra-nasal surgery:
Add 10% of the fee of the procedure performed. Only applicable to items 1025, 1027 and 1035.

**MODIFIER GOVERNING THE SUBSECTION
INTENSIVE RESPIRATORY THERAPY**

- 0070 A reduction of 66,67% (2/3) of the fee will apply to the pulmonary function tests as indicated in section 4.6.2 where hospital equipment is used.
- 0071 Where this work is done after hours, over a weekend or on public holidays, a further R37,20 may be charged.

MODIFIER GOVERNING THE SECTION CARDIOVASCULAR SYSTEM

- 0073 *Intensive coronary care:* Visits: Add R37,20 for holidays, weekends and night visits.

MODIFIER GOVERNING GASTROENTEROLOGY PROCEDURES

- 0074 A reduction of $33\frac{1}{3}\%$ (one-third) of the fee will apply to all fibre optic procedures performed by means of hospital equipment, except in cases where a doctor hires equipment from a hospital.

MODIFIER GOVERNING FEES FOR FIBRE OPTIC PROCEDURES

- 0075 The fee plus R65,10 will apply where fibre optic procedures are performed in rooms with own equipment.

MODIFIER GOVERNING THE SECTION OPEN-HEART SURGERY

- 0076 The fee for the first assistant is $33\frac{1}{3}\%$ and that for the second assistant 15% of the operation fee (excluding fee for additional services, e.g. by physicians, radiologists, physiotherapists, technicians, etc.)

SPECIFIC MODIFIER: SECTION ON PHYSICAL TREATMENT

- 0077 (a) When two separate areas are treated simultaneously for totally different conditions, such treatment shall be regarded as two treatments for which separate fees may be charged.
(b) The number of treatments to a patient for which the Commissioner shall accept responsibility is limited to 20. If further treatments are necessary, payment therefor must be arranged with the Commissioner.

MODIFIER GOVERNING THE SECTION MEDICAL PSYCHOTHERAPY

- 0079 When a first consultation proceeds into, or is immediately followed by a medical psychotherapeutic procedure, fees for the procedure are calculated at R37,20 per 20 minutes.

MODIFIERS GOVERNING THE SECTION DIAGNOSTIC RADIOLOGY

- 0080 Multiple examinations: Full fee.
- 0081 Repeat examinations: No reduction.
- 0082 *Means that this item is complementary to a preceding item and is therefore not subject to reduction.
- 0083 When a Radiologist makes use of hospital equipment, only 33,33% (one-third) of the fee for the examination is chargeable.
- 0084 In the case of radiological items where films are used, practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit.
- 0085 In cases where a radiological examination is not preceded by a consultation by the radiologist, he may charge the nett cost of disposable material used. Each item must be clearly indicated on the account.

SPECIFIC MODIFIER GOVERNING VASCULAR STUDIES

- 0086 *Vascular groups:* 'Film series' and 'Introduction of Contrast Media' are complementary and together constitute a single examination: Neither fee is therefore subjected to reduction (Modifier 0080).

SPECIFIC MODIFIER GOVERNING "FILM SERIES"

- 0087 Per additional series of Item 3531 to Item 3551: 50% of the fees.

MODIFIER GOVERNING CORONARY CINE ANGIOGRAPHY

- 0088 *Multiple selective catheterisation:* For each additional selective catheterisation after the first selective catheterisation, reduce the fee with 25%.

**MODIFIER GOVERNING
COMPUTER TOMOGRAPHY**

- 0089 The number of sections of each examination and the matrix number must be specified. A full series of section would be 8 or more for brain examinations, 12 or more for chest examinations, and 16 or more for abdomen examinations. Fees for examination on a matrix number of less than 250 shall be reduced by 50%.

**MODIFIERS GOVERNING
ULTRASONIC INVESTIGATIONS**

See modifiers 0152 — 0160 under paragraph 19.11.

**MODIFIERS GOVERNING
THE SECTION RADIOTHERAPY**

- 0093 The fees for radiotherapy shall apply only where a specialist in radiotherapy uses his own apparatus.
- 0094 Where a specialist in radiotherapy uses hospital equipment, only 33,33% (one-third) of the fee for the therapeutic procedure is chargeable.

**MODIFIERS GOVERNING
THE SECTION PATHOLOGY**

- 0097 Where items under Pathology and Anatomical Pathology fall within the province of other specialist or general practitioners, the fee is to be charged at two-thirds of the pathologist's fee.

II. COST OF MATERIAL

0201 (a) *Cost of material:* This item provides for a charge for material and special medicine used in treatment. Material to be charged for at cost price plus 35%. Charges for medicine used in treatment not to exceed the retail Ethical Price List.

Hoffman Apparatus: An amount equivalent to 20% of the purchase price of the apparatus may be charged for each patient where such apparatus is used.

- (b) In case of *minor injuries* requiring additional material (e.g. suturing material) payment shall be considered, provided the claim is motivated.
- (c) **Note:** *Medicine, bandages and other essential material for home-use by the patient* must be obtained from a chemist on prescription or, if a chemist is not readily available, the practitioner may supply it from his own stock, provided a relevant prescription is attached to his account. Charges for medicine used in treatment not to exceed the retail Ethical Price List.

3. MUSCULO-SKELETAL SYSTEM

- M 0046 Where in the treatment of a fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting, the fee for the initial treatment of the fracture or dislocation shall be reduced by 50%. The full fee for the open reduction, internal fixation, external skeletal fixation or bone grafting may be charged. After one month, a full fee as for the initial treatment, is applicable.
- M 0047 A fracture NOT requiring reduction shall be charged on a fee for service basis PROVIDED that the cumulative amount does NOT exceed the charges for a reduction.
- M 0048 Where in the treatment of a fracture or dislocation an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be R83,70.
- M 0049 **Except where otherwise specified**, in cases of compound fractures, R238,70 (specialists) and R158,10 (general practitioners) are to be added to the fees for the fractures, including debridement.
- M 0050 In cases of a compound fracture where a debridement is followed by internal fixation (*excluding fixation with Kirschner wires and excluding fractures of hands and feet*) the full amount according to either modifier 0049 or 0051 may be added to the fee for the procedure involved, plus half of the amount according to the second modifier (either 0049 or 0051 as applicable).
- M 0051 **Except where otherwise specified**, in cases of fractures requiring open reduction, internal fixation, external skeletal fixation or bone grafting: Add R238,70 (specialists) and R158,10 (General practitioners).
- M 0053 Fractures requiring percutaneous internal fixation [insertion and removal of fixatives (wires) in respect of fingers and toes included]: Add R99,20 (specialists). General practitioners add R65,10.
- M 0055 Dislocation requiring open reduction: fee for the specific joint plus R238,70 (specialists) and R158,10 (general practitioners).
- M 0057 The maximum fee for multiple reconstructive procedures to one foot is R1 209,00.
- M 0058 Revision operation for total joint replacement and immediate resubstitution (infected or non-infected): per fee for total joint replacement plus 100%.
- M 0059 Primary guillotine amputation: 50% of specific procedure.

19. RADIOLOGY

Diagnostic procedures

MODIFIERS GOVERNING THIS SECTION OF THE TARIFF

M 0080 Multiple examinations: Full fees.

M 0081 Repeat examinations: No reduction.

M 0082 "+" Means that this item is complementary to a preceding item and is therefore not subject to reduction.

'M 0083 When a Radiologist makes use of hospital equipment, only 33,33% (one-third) of the fee for the examination is chargeable.

NOTES in respect of fees payable when X-rays are taken by general practitioners.

(*If the services of a radiologist are normally available*, it is expected that they should be utilised. Should circumstances be unfavourable for obtaining such services at the time of the first consultation, the general practitioner may take the initial X-ray himself *provided*, he submits a certificate to the effect that it was in the best interest of the workman for him to have taken the plates. Subsequent X-ray plates of the same injury, however, must be taken by a radiologist who has to submit the relevant reports in the normal manner.)

1. When a general practitioner takes X-ray plates with his own equipment, if the services of a specialist radiologist are not available, he may claim at the prescribed fee.
2. (i) If a general practitioner orders an X-ray examination at provincial hospital where the service of a specialist radiologist are available, it is expected that the radiologist shall read the photos for which he may claim at one-third of the prescribed fee.
 (ii) If the radiographer of the hospital is not available and the general practitioner has to take the X-ray plates himself, he may claim at 50% of the prescribed fee for that service. In that case, however, he should get confirmation of his X-ray findings in a report from the radiologist as soon as possible. The radiologist may then claim at one-third of the prescribed fee for such service.
3. If a general practitioner orders an X-ray examination at a provincial hospital where there are no specialist radiological services available, he will not be paid for reading the plates as such a service is considered as an integral part of routine diagnosis, but if he is requested by the Commissioner to submit a *written report* on the case, he may claim at two-thirds of the prescribed fee in respect thereof.
4. If a general practitioner has to take and read X-ray plates at a provincial hospital where the services of a radiographer and a specialist radiologist are not available, he/she may claim 50% of the prescribed fee for such service.

M 0084 In the case of radiological items where films are used, practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit.

M 0085 In cases where a radiological examination is not preceded by a consultation by the radiologist, he may charge the nett cost of disposable material used. Each item must be clearly indicated on the account.

19.8 Vascular studies**MODIFIER GOVERNING VASCULAR STUDIES**

- 0086 Vascular groups: "Film series" and "Introduction of Contrast Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier 0080.

19.8.1 Film Series**MODIFIER GOVERNING "FILM SERIES"**

- 0087 Per additional series of Item 3531 to Item 3547: 50% of the fees.

In the case of an aortogram for peripheral vascular disease, the lower limbs are not added as well.

In the case of selective catheterisation of a branch of the aorta, the catheterisation and examination of the aorta are not added.

IV. TRAVELLING EXPENSES**REFER TO GENERAL RULE P**

When a doctor has to travel more than 5 kilometres to visit a patient, the fees shall be calculated as follows:

Consultation, visit or surgical fee: Plus

- 5001 Cost of public transport and travelling time OR
 5003 R0,38 per km for each kilometre in excess of 10 kilometres total travelled in own car: 19 km total = $9 \times 0,38$ cent = R3,42 cents (no travelling time).

Where distances exceed 30 km the fee shall be calculated at a rate of R0,60 for each kilometre in excess of 10 km total: 31 km total = $21 \times 0,60$ cents = R12,60 (*No travelling time*).

Travelling time. (Only applicable when public transport is used.)

- 5005 Specialist: R55,80 per hour or part thereof.
 5007 General Practitioner: R37,20 per hour or part thereof.
 5009 After hours: Specialist: R83,70 per hour or part thereof.
 5011 After hours: General Practitioners: R55,80 per hour or part thereof.
 5013 Travelling fees are not payable to medical practitioners when they travel from a distance to assist at an operation on cases referred to surgeons by them.
